

## Listing of Claims

Claim 1. - 18. (Cancelled)

1           19. (original) A method for engaging in an activity, the activity to be engaged  
2 in by a plurality of players, each player provided with a plurality of discs, the method  
3 comprising

4                       each player throwing a plurality of discs at a target, each disc of  
5 the plurality of discs having identifying indicia thereon for identifying the player  
6 throwing each of said discs,

7                       scoring for each player based on a final resting location with  
8 respect to the target, each of said discs comprising an aerodynamic flying disc  
9 and having a disc body with an annular rim comprising a downturned lip and  
10 having an airfoil profile that creates lift in flight, each of said discs having a  
11 score value indicator on said disc which corresponds to an indicated number of  
12 points that can be scored with said disc, and

13                      each player scoring an indicated number of points with each  
14 thrown disc by throwing discs of the plurality of discs with score value  
15 indicators thereon at the target.

1           20. (new) The method of claim 19 wherein the plurality of players are divided  
2 into at least two opposed teams.

1           21. (new) The method of claim 20 further comprising

2                       each team alternating on offense and defense, a team on offense  
3 attempting to score and a team on defense attempting to prevent the other  
4 team from scoring.

1           22. (new) The method of claim 19 wherein a score is achieved for each disc  
2 that hits the target, the method further comprising

3                       a player throwing one of said discs at the target and achieving a  
4 score for said disc that hits the target.

1           23. (new) The method of claim 19 wherein the target is a container and the  
2 players attempt to throw discs into the container.

1           24. (new) The method of claim 19 wherein a player is allowed to retrieve a  
2 disc that fails to hit the target and again throw said disc at the target, the method

3 further comprising

4 allowing a player to retrieve a disc that fails to hit the target and  
5 to re-throw said retrieved disc at the target.

1 25. (new) The method of claim 19 wherein the target is a container and the  
2 players are spaced-apart around and each equidistant from the container.

1 26. (new) The method of claim 19 wherein the target is a soccer goal.

1 27. (new) The method of claim 19 wherein the identifying indicia is color.

1 28. (new) A method for engaging in an activity, the activity to be engaged in  
2 by at least two players, the players divided into a first team and a second team each  
3 team with at least one player, the first team provided with at least one disc, the  
4 method comprising

5 at least one player of the first team throwing the at least one disc  
6 at a player of the second team in an attempt to score points,

7 said at least one disc comprising an aerodynamic flying disc and  
8 having a disc body with an annular rim comprising a downturned lip and having  
9 an airfoil profile that creates lift in flight,

10 said at least one disc having a score value indicator on said at least  
11 one disc which corresponds to a number of points that can be scored with said  
12 disc by hitting a player at whom the disc is thrown without the player catching  
13 the disc, and

14 a player achieving a score by throwing a disc at another player and  
15 by hitting said another player.

1 29. (new) The method of claim 28 wherein the at least one disc has a soft  
2 outer portion for inhibiting injury to a person struck by said disc.

1 30. (new) The method of claim 28 wherein a score is achievable by a player  
2 by catching a disc thrown at said player, the method further comprising

3 a player achieving a score by catching a disc thrown at said player,  
4 the score achieved being the score indicated by the score value indicator on the  
5 disc.
